

Gabi Necklace

stainless steel mesh necklace with changeable wire for beads

This necklace have 3 parts. 2 mesh parts with magnetic clasp and one middle part.

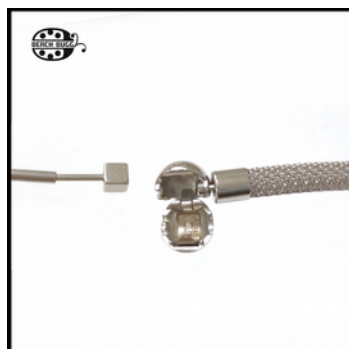

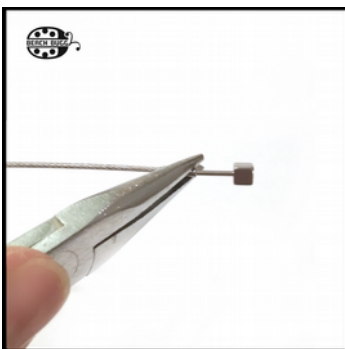

The middle part is made of wire, this wire can be closed with cube form screw.

PLEASE DO NOT WEAR THIS NECKLACE WITH KNITTED DRESS OR SILK DRESS, THE MESH MAY TANGLED WITH THE DRESS MATERIAL!

Interchangeable wire

The wire is closed on one side with crimp bead and with a cube on other side. The cube is a screw. Please hold the slim cylinder part of the wire with pliers until you screw the cube. Open the ball part of the necklace and close into the ball the end of wire.

Fix wire

This wire is 27 cm long. You have 9 pieces of them. Install your glass beads on the wire and close the end of wire with a crimp bead. Before you close it, let 5-7mm free space between you glass beads and the crimp bead on the wire. If you do not let free this 5-7 long wire, you can not close the end of the wire into the ballpart of the necklace. To press the crimp bead please use a crimp pliers. After the crimp bead is installed cut wire, short as possible.
